

BENGALI CHR. 254, FROM SEPTEMBER 2021R

TO CALCULATE THE EXACT FEELING TEMPERATURE (WT)

T°C	taux d'humidité de l'air →															
	25%	30%	35%	40%	45%	50%	55%	60%	65%	70%	75%	80%	85%	90%	95%	100%
42°	46	50	52	54	56	58	60	62	64	66	68	70	72	74	76	78
41°	46	48	51	53	55	57	59	61	63	65	67	69	71	73	75	77
40°	45	47	49	51	53	55	57	59	61	63	65	67	69	71	73	75
39°	43	45	47	49	51	53	55	57	59	61	63	65	67	69	71	73
38°	42	44	45	47	49	51	53	55	56	58	60	62	64	66	67	68
37°	40	42	44	45	47	49	51	52	54	56	58	59	61	63	65	66
36°	39	40	42	44	45	47	49	50	52	54	55	57	59	60	62	63
35°	37	39	40	42	44	45	47	48	50	51	53	54	56	58	59	60
34°	36	37	39	40	42	43	45	46	48	49	51	52	54	55	57	58
33°	34	36	37	39	40	41	43	44	46	47	48	50	51	53	54	55
32°	33	34	36	37	38	40	41	42	44	45	46	48	49	50	52	53
31°	32	33	34	35	37	38	39	40	42	43	44	45	47	48	49	50
30°	30	32	33	34	35	36	37	39	40	41	42	43	45	46	47	48
29°	29	30	31	32	33	35	36	37	38	39	40	41	42	43	45	46
28°	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43
27°	27	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41
26°	26	26	27	28	29	30	31	32	33	34	34	35	36	37	38	39
25°	25	25	26	27	27	28	29	30	31	32	33	34	34	35	36	37
24°	24	24	24	25	26	27	28	28	29	30	31	32	33	33	34	35
23°	23	23	23	24	25	25	26	27	28	28	29	30	31	32	32	33
22°	22	22	22	22	23	24	25	25	26	27	27	28	29	30	30	31

(red is mortal; purple is dangerous; brown is unbearable; yellow hard to bear; cream is very hot)

When it is 30 degrees Centigrade and 80% humidity (dampness) how much reel temperature?
 When we have 35 degrees and 97% humidity, how much reel feeling?

Let us think about people without AC in their small huts!

VISIT of the « DIRECTOR COMMITTEE » OF A BIG MUSLIM MADRASSA

They came to request me to start again talks for their 500 girls' students. I shall do it with great pleasure when my health shall be fit in winter.

Phushan, 35, mentally sick brother of our Secretary, comes at ICOD to search after his departed grandmother...Cries and cries , even after one month. Not finding her here, he left, hoping to meet her in his place! My poor brother!

VISIT OF MY GODSON PAPU ALONG WITH HIS FAMILY

Extreme right, Papu, his wife Sanghita, and his 2 children.

Extreme left, his P.A (personal Assistant), an old friend of mine.

They came to offer me an electric wheel-chair (by November) Luxury under my straw-house !

BINAY REPRESENTING US IN ONE OF THE « DWARE CAMP» OF MAMATA

Palash (in pink) to collect 57 cards for our inmates. Quite difficult, but Binay arranged everything.

Three of policemen frequently coming to ICOD.

VISIT OF SITA, ORPHAN THAT WE HAVE GIVEN IN MARRIAGE TO SIMANTO

Sita, Simanto, and their two children of 9 and 11.

First visit of their in laws.

This niece is a nursing student. Great joy for me. They are a really poor family, but a beautiful and happy one.

TWO OF OUR ORPHAN GIRLS MARRIED OUTSIDE ICOD

- 1) **SOMA** and her young husband. Complete orphan, she has left us last year...and got married six months later. She is slightly mentally retarded (Class 6) and the boy looks very neglected. We hope for a good future for them.
- 2) **SUSHMITA** :her mother died at ICOD. She remained some months more at school, then left to join some relatives. She was a quite difficult girl. But now, she seems so happy with her husband and two children, spoke with enthusiasm about her life, and we were quite happy for her.
Both are living in Midnapur

BLESSINGS BY A PUJARI AT VISHWAKARMAPUJA

Minibus, auto, motos, bicycles, sewing machines etc.

KRISHNA JAYANTI

Our Veranda is very narrow, and I have found a place at the entrance of a room.

MEETING WITH THE IN-CHARGES OF THE GIRLS' HOME

On my right, Gopa and two women orphan, with us since more than 20 years, Haru & Tripti. The third one, Orchona, works for her old destitute mother. She holds the hand of a « dangerous inmate », who has already enucleated two women! She has a girl, but ignores her. The three of them take once a month four days leave. Gopa never!

WHEN RAINY, REPAIRS INSIDE. WHEN SUNNY, REPAIRS OUTSIDE.

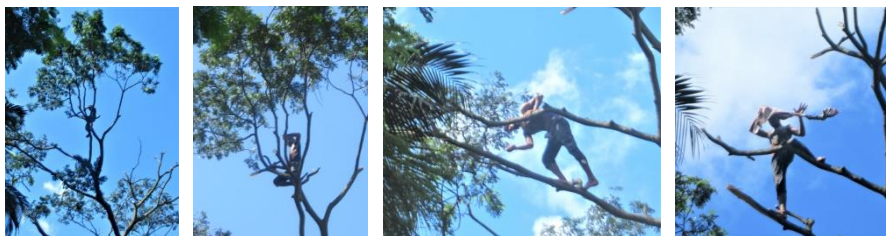

Hedges and coconut trees leaves are pruned by a professional friend, free of cost.

TRYING TO PREVENT THE FALL OF ONE OF OUR LARGEST « SIRIS » TREE

Some professionals are cutting the larger branches, but cannot climb higher. One must call a more courageous group to cut the higher branches and leaves.

Remarkable trapezist gymnastic !

Higher and higher...
no cyclone will have grasp upon the smallest branches, even if leaves grow again!

The tree's balance now is re-established, and no cyclone will have grasp upon the smallest branches, even if leaves grow again!

SOME VEGETABLE HAVE BEEN LABORIOUSLY CULTIVATED

Clearing the ground is very tiring job.

Looking about the goats and sheep is clearly easier!

OUR GIRLS ARE PREPARING FOOD FOR THE PUJAS

It is a tedious work which will take several hours here, including pastries' cooking in the kitchen.

AFTER THREE MONTHS, I CAN START AGAIN TRICYCLING!

This way diminishes the pains... or makes them forgotten.

AFTER SO MUCH RAIN, OUR POND IS FULL !

Because of the rains, several trees have fallen, and the surrounded land is saturated. Last picture taking from my room this 30th September: will this tree survives the cascading rains?

Last night, a papaya-tree has collapsed with plenty of green fruits: excellent curry during the whole Pujas 'vacation!

Some flowers...

Nymphaea-water-lily that bloomed at...10 PM in my room: absolutely unexpected!
Then some survivor's orchids... Last, Lonicera from a special dwarf banana tree.

« I have never seen this bird!”...But it is a rare Dictyophera asiatic myshroom!

Coucal...Centropus sinensis.

**FLOODS PRACTICALLY PERMAMENT FROM JULY IN MANY PLACES OF BENGAL:
ALREADY MORE THAN 1000 DEAD, INCLUDING 100 THIS LAST WEEK”**

What a resilience! And if we were in their place, what’s about our reaction?

Kolkata, 20th of September

Note: Floods also in may Indian States!

Photos from Internet, for, alas, I could not go in all these places.
